Huntsville AI

December 5, 2018

What we've done:

- Facebook group with 53 members (almost all local)
- 12 Events at CWN and 1 at SpaceApps
- Learning at NASA
- Cyber Security
- Fast.ai Lessons 1-4
- Github page for HSV-AI

Future Thoughts!

- Provide alternative connection opportunities - Meetup, LinkedIn, Mailing List
- Involve other CWN groups in crossover discussions - Marketing, DevOps, etc
- More hands-on tutorials
- More people involved with scheduling sessions & get togethers

Just so I don't forget
